

Compacts Process

- Compact locations are indicated on the map by yellow stars
- One or more active or inactive USGS stations are always associated with the location of a yellow star

Compacts Process, cont'd

1. Click the Edit button in the Editor toolbar 
2. Click on a Compact location, causing a blue circle to appear 
3. Click on Attributes in the Editor toolbar 
4. Set the COMPACT_STATUS and COMPACT attribute values to 1 in the attribute table

Compacts Process, cont'd

5. Specify a station number in the COMPACT_SITE_ID attribute value if a different station provides information for the compact location
6. Close the attribute window
7. The star will turn from yellow to blue

Compacts Process, cont'd

8. Click on the Editor button in the Editor Toolbar

9. Click on Save Edits

10. When all Compact stations have been edited, click on the File pull-down menu, then on Save to save your file to your hard disk
